Hi Josh have a look at this web site.

www.charanda.com.au

we like the way it is set out.

On the home page instead of plain buttons for each page, can u make them a pic of camera for cctv. Plasma for home theatre and boat for marine ect...

Let us know you got this e mail.

Cheers Evan.

Hi Sandra and Evan,

Attached is 2 different design I have done, please let me know if it is what you had in mind, or anything I can change to make it better.

I can certainly do the website more along the lines of the charanda site, however something to keep in mind is that is done in flash, so for a lot of dial up users it will be slow, and possibly not supported in some browsers.

I'll give you a ring tomorrow to discuss the page content and text, also, I have not recieved the trailer artwork as of yet.

Something to keep in mind with the africa photos as backgrounds, is that it is currently imposible to prevent the photos being obtained. It can be made very very difficult, but anyone with a fair bit of knowledge would be able to obtain them, simply because at some point it is being sent to the computer without any protection.

Hello again,

Just wanted to note, as the pages are still being developed, anything you see such as some white spots or some left over colours such as the blue line on the first page would of course be removed.

Also, do you happen to have the master file for the logo in either a png or psd file format? It would make it far easier to resize etc

Thanks,
Josh

Hi Evan,

Sorry about this, my phone seems completely dead now.

YOu can have a look at the site at www.hivesecurity.com/secmarit

Just let me know of any changes you want made before I put it up on secmaritsolutions.com

I am just waiting on the gps thing from bill, and was not too sure of the wording for external beams and phone and data, and marine.

Email address will be up by tonight.

Gps page

Contact us page.

Change colour of text from purple and blue to white.

Darren Wright's name has disappeared can you please reload it and change his e-mail address to dsecurity@itconnect.net.au only put Darren's contact on the GPS page and state NSW dealer for GPS.

Dmitri Koulakov. And his mobile. Position sales manager, [email- sales@secmaritsolutions](mailto:sales@secmaritsolutions)

Product page.

For GPS & satellite tracking: if you are interested in utilising GPS tracking for your investments commercially and private, make sure you make the right choice first time round, if you are looking for any of the following concepts contact us now – fleet management, Earthmoving Machinery, trucking (light & heavy), motorcycles, etc, you want a unit that is fast, user friendly, cost efficient, and most of all a system where you are not expected to update software every time you expand.

Josh read through this and fine tune if need be.

We have been selected for 3 major magazines so this site has to be ready.

Good news for all of us.

services page

At the end of your alarms paragraph, - if your security, data, CCTV, overheads are to high, call us now and let us show you how these and more can be minimised with minimal outlay. Make it work for you and your needs, not just your insurance. (the average system pays itself off within 6 months)

External beams, link it to the alarms and CCTV page and just a quick paragraph saying: these beams are used to secure roof tops and the external boundary. By spending the extra few dollars you can minimise your false alarms such as dogs, cats, birds etc. These beams can be linked into your existing alarm panel or most CCTV units. Use pic of beam I sent u if its any good.

Marine security services. Take off the link and just outline on the services page : Secmarit Solutions are more than happy to design your vessel with the most advanced technology such as Home theatre, security and all on board IT issues. We specialise in saving space and cost. Most of our solutions can be monitored by the owner via satellite, or gsm.

Josh, put a pic of a good boat next to paragraph.

Add on Dryden Trailers link, and please link to its own page. Password protected.

Next to link on services page: this page is only for the clientele of Dryden trailers.

On Dryden page: with Dryden Trailers being one of the few Australian owned and operated companies that design and build there trailers and motor homes to spec, Secmarit Solutions are very privileged to supply the following technology for there work.

- Home theatre. [Pic of a nice plasma.](#)
- Stereo / cd / dvd. [Pic of a nice computore tower](#)
- Mobile network. Covering phone, fax, email.

All the above in one system, minimising cost and space.

- Full GPS security. (monitored 24 / 7) [pic of satellite.](#)

If you are a client of Dryden Trailers quote this ref n.o and you will receive at lest 25% saving on the over all job.

Josh if you don't get the email on gps before this one use this info.

Paragraph for GPS tracking on products page: If you are looking into live tracking at a professional standard look into what Secmarit Solutions has to offer. We supply designs and product for the Earthmoving, Transport (heavy and light) , motorcycle and motor vehicle industry. We have even gone as far as house boats. In the commercial industry our records can show you where, when, time / date, and the amount of deliveries / hours worked in each day.

When you look into GPS tracking you want to be looking for a system that you can keep expanding without updating software, live footage and not 30 sec or more behind, and reliable software and support.

If any of the above relates to your investments please don't hesitate to call and we will show you how to reduce your monthly outgoings by 35% and increase your security to 24/7 days a week.

Josh please let me know if u got this.

Hi mate im glad you had a good flight.

Email me a scedule on times you want to go on msn, and make sure it is in australin time frame.

I have the link for the data bse bu can you let me know the link for the projects data base as well.

Remember to look into our pwer project, for you me and dad.

I have the layout for Gary Collins,

what was the status for breen and ams sites.

make sure you look after yourself and if you have any problems , make sure you let me know.

Dont be affraid to ring me collect if it is urgent. Remember new number is, 07 55 475475.

Cheers Evan.

p.s , all emails must only go through web@secmarit, so when you send or reply make sure it is through web@secmarit. you know why.

Have a good time.

Hi Sandy,

I did send quite a lot of messages to try and forewarn you guys, i sent them to evans address though. I am not sure how you could transfer it to an account, as it is an american company, and I have previously payed them via credit card, via emails in my account. I can pay via credit card for you if you like, might be the easiest way.., I have the card number and expiry date, so would just need the 3 digit security code on the back. I will have a look to see if its possible to forward you the email, but I dont think it is.

Josh

I have been checking web' each day, but no information, i need to know what more needs to be done, and what is happening with tianna, leighton and gary collins. also i need credit card information to pay for the hosting, as the credit card i was using will expire, and the website will be out of operation temporarily...

please get back to me as soon as possible
thanks,
josh

Hi Josh,

Will have some news for you this week, what date does our hosting expire and how much will it be can I pay for it by EFT direct to an account, will the fee be for a year. Hope all is well with your trip.

Sandy

Hi Sandra,

Re: urgent

The hosting has already expired, so it has to be paid soon to avoid losing data and email, it is \$8 per month or \$80 for a year. Trip is going ok, just staying with a friend and working out where I will go next.

Cheers,
Josh

Hi Josh

I don't know if you had told Evan or not about the hosting expiring but if not a bit of fore warning would have been good, if so can you please talk to me about anything to do with finances Evan has so much on his plate at the moment and things can be overlooked, can you email me some account details so I can transfer some money please. Glad to hear the trip is going so well.

Ta Sandy

mail2web - Check your email from the web at
<http://mail2web.com/> .

Josh,

The code is 923 you can use the credit card for the \$80 for the website and I need an update on what stages the websites are at for AMSS, Gary Collins and Leighton are at we can't invoice for these websites until they are finished therefore can't pay you, I also need invoices from you Josh I am trying to keep the books straight and paying out money without an invoice is impossible and as well as this you can't receive money without issuing an invoice. Please also let me know when you may be on MSN so that Evan or I can chat about this.

Thanks Sandy

search your emails for one from me from web@secmaritsolution which has the info on jobs database...i need to know whats happening, i need to use \$100 pretty soon, im at an email only machine at the moment, will look at site as soon as i can, what is wrong with it?

mail2web - Check your email from the web at
<http://mail2web.com/> .

Hi Josh,

The website is down completely you cant view anything, the database was supposed to have a coded link so people can look at it and what status are the other 3 websites at can we view anything on them at all can you send link. Send me your account details and as soon as I can see that these websites are ready to go I will deposit some money.

Thanks Sandy

Hi Guys,

If you could just get jeff to fix these forms up and fax them back, I will have control of the domain.

The forms must be filled in completely along with a copy of photo identification (e.g. driver's license, passport) or proof of physical location (e.g. utility bill), for the person listed as the administrative contact. Please find below the information we currently have on file for the domain. The information provided MUST match either the name (in the case of a driver's license or passport) or the physical address (in the case of a utility bill) as listed below. Failure to do so will delay processing of your request, and may result in you having to send correct information by fax.

First Name: High
Last Name: Tide Mark
Organization: High Tide Mark
Address 1: Oasis ArcadeSh 1A/ Glebe Street
Address 2:
City: Peregian Beach, QLD
Province/State: --
Country: AU
Postal/Zip Code: 4573
Tel: 07 5448 3044
Fax: -

Josh

Evan made a special trip to the city to see you, he has been waiting in town for you for hours now as discussed he bought in the wireless broadband card, a phone sim for you. He has now had to leave the city it has made him extremely late for the rest of his appointments, I know things have been slow to happen with us however now is a time that is crucial for us all to achieve what we want, Evan was trying to get you to do this work to help you get ahead financially, if you want this opportunity great if you dont then dont waste my time or Evans by not showing up for appointments, we have high paying clients now and cant waste time. Please let me know what way you want to go, we are prepared to help set you up, but in return a little courtesy is needed.

Thanks Sandy

evan hi tide.

hi Hun

Have sent the original estimate for Gordon & Jules as this had the 3 stages on it also will give you an indication of what you had before. Tried to ring back Jeff Pinchen from High Tide Mark and he was conveniently out of the office. am in process of trying to sort out something with court hearing tomorrow for Yatala Office Supplies may be able to delay things due to my name not being on court document.

love ya s&g&k
